NOV 1956

MEMORANDUM TO: Commander, 4070th Support Wing
SUBJECT : U-2 Checkout

1. In order to broaden the understanding and experience of headquarters personnel with the operation of the U-2, it is desired that the rated pilots assigned to the operations section of headquarters be checked out in the U-2.

2. Attached is a list of personnel whom I desire to be given U-2 checkouts. Such checkouts should include at least the first three missions as given to your regular pilots. Since it is not intended to provide suits for these people, of necessity they must be restricted below 45,000 feet. Such training should be conducted starting on or after 7 January 1957.

3. In discussion with [REDACTED] of your organization, it was determined that it would be of assistance to you in determining how much would be involved as well as how much time each individual would be absent from headquarters if you had a brief rundown of each person's experience. This is also provided on the attached list.

4. It is desired that the orientation include:

- a. T-33 ground school.
- b. T-33 checkout (on a proficiency basis).
- c. U-2 ground school.
- d. U-2 checkout (at least first three missions).

5. Based on what has been set forth above and not to interfere with any prior commitments, desire you cable to headquarters the information listed below.

a. Total calendar days for T-33 ground school. All pilots to receive the same.

b. Total calendar days to qualify each individual in the T-33. This should be listed by individual pilot based on your best estimate taking his past experience into consideration. It is emphasized that actual checkout to be to your satisfaction on a proficiency basis.
